We exercise the utmost care in handling all articles, but are not responsible for shrinkage, loose dyes & stains that cause dye runs, non-removable stains, sun & atmospheric fading, holes or tears due to the degradation of said fabrics, glue bleeding, shading or other fabric defects beyond our control. Depending on the rugs material, we may use a wet or dry method of cleaning. We will not be responsible for any fading, bleeding or color loss. Color change is extremely rare but possible. Previous chemicals or animal stains may cause some color change during the cleaning process. Our staff is extremely careful when cleaning rugs, and the cleaning process is extremely safe, but some rugs are in bad condition, fragile or have unseen moth damage which could result in yarn loss, therefore, we can not be held liable for any yarn loss during the cleaning process. Fringe does not clean well and is sometimes fragile; therefore, we can not be held liable for weak fringe that damages during cleaning. Extremely soiled rugs will be cleaned twice at no extra charge. We do not guarantee any specific results. I understand that if items are not picked-up in 30 days, storage fees will apply.
